

# CYBERDEFENSE.AI - Privacy Policy and Compliance with Law 25

Effective Sept 9, 2023

CYBERDEFENSE AI is committed to respecting privacy and the confidentiality of personal information. In the course, of CYBERDEFENSE AI activities, we do not collect, process, or store any personally identifiable information, by the provisions of Law 25 of Quebec and other relevant data protection laws.

## **Collection and Use of Information**

CYBERDEFENSE AI does not collect any personal information through its systems or platforms. Our solutions are exclusively designed to analyze technical data and cybersecurity threats, without handling individuals' personal information.

## **Exclusion of Personal Data**

We confirm that none of the data processed by CYBERDEFENSE AI can directly or indirectly identify a natural person. Our technologies and processes focus on securing infrastructures and IT systems, without managing personal data.

## **Compliance with Law 25**

In compliance with Law 25, which modernizes the legal framework for personal information protection in Quebec, CYBERDEFENSE AI has implemented rigorous measures to ensure that our practices meet privacy standards. Although we do not handle personal data, we are committed to adhering to all applicable regulations and maintaining complete transparency in our practices.

CYBERDEFENSE.AI

## **Data Security**

The data processed by CYBERDEFENSE AI is secured through state-of-the-art cybersecurity technologies. We ensure that all systems are protected against cyberattacks, data breaches, and any unauthorized intrusion.

## **Rights of Individuals**

Although CYBERDEFENSE AI does not process personal information, we remind individuals that everyone has the right to be informed about companies' data protection practices. We are available to answer any questions regarding our security and privacy practices.

## **Contact**

For any questions regarding this privacy policy or our compliance with Law 25, please contact our Data Protection Officer at the following address:

Mickael Nadeau

CTO - CISO
